MARION TO HAVE RECEIVING STATION

Jarvis Tobacco Warehouse Taken Over By The D. T. G. C. A.

The Dark Tobacco Growers Cooperative Association has purchased the Jarvis Tobacco Warehouse, near the I. C. station, and will make it a receiving station for the tobacco growers who have pooled in that association. Mr. R. L. Jackson of Dixon, was here Wednesday and after inspecting the factory found it to be well equipped and in good condition for use. Mr. Jackson is Director over the Green River and One Sucker tobacco territory.

Arrangements are being made as rapidly as possible and it is hoped that the warehouse will be opened for receiving tobacco by December 20th.

Mr. S. T. Dupuy will be general manager and Mr. H. K. Woods will have charge of the office work.

COUNTY AGENTS' CONVENTION

County Agent John R. Spencer and Assistant County Agent H. K. Warth left Monday for Lexington to attend the annual meeting of the County Agents' Convention, which convened in that city on Tuesday, December 12 for a four days session. It is the duty of every County Agent in the state to be present at these meetings.

The object of this gathering is to confer as to better methods of work pertaining to the office of County Agents.

Messrs. Spencer and Warth will be back into their office here Saturday.

CITY COURT NEWS

Tom Wadlington was tried before Judge A. M. Gilbert Tuesday on a charge of running an automobile while drunk, and given a fine of \$25. Corda Smith, charged with speeding an automobile, was fined \$10.

FIRST BAPTIST CHURCH

Sunday School, 9:30 A. M.
Preaching: 11:00 A. M., "Thou art Called to Eternal Life."
7:00 P. M., "The Fountain of Eternal Life."
B. Y. P. U. Sunday 6 P. M.
Prayer meeting, Wednesday 7:00.
Choir practice Wednesday evening following prayer meeting.
"I was glad when they said unto me, 'Let us go into the house of Jehovah.'"
B. H. DUNCAN, Pastor.

HARRY MOORE

Mr. Harry Moore, son of Mr. and Mrs. Jno. A. Moore, of this city, is a graduate of Marion High School, being a member of the class of 1920. As stated in a recent issue of the Press he was selected by the E. M.

P. A. of Sturgis to represent the Association in Milwaukee, where he won the prize over the other contestants. As a member of the Senior class of 1920, he won the oratorical contest in the C. I. A.

A PROFITABLE OCCASION.

The Baptist Family Reunion, held in the Auditorium of the First Baptist Church, of this city, last Wednesday evening, was an event that was greatly enjoyed by all those present. A large number of the members of the Church, and many others, gathered at the church at 6 o'clock, and after an invocation was offered by Rev. U. G. Hughes, an elegant luncheon was served by the ladies, consisting of Chicken salad, pimento, pineapple, cheese and ham sandwiches, pickles and coffee.

A short, but interesting, program was carried out as follows:
Song: "Praise God, from Whom All Blessings Flow," Congregation.
"What I Would Do If I Were a Preacher," Sam Carnahan.
Quartet: "Misses Lavine and Margaret Guess, Mrs. Lena Maude Driskill and Mrs. Gladys Moore."
"What I Would Do If I Were a Layman," Rev. B. H. Duncan.
Solo: Mr. Forrest Wring.
"Work and Co-operation of the Women in the Church," Mrs. Florence Vandell.
Song: "Blest Be the Tie That Binds," Congregation.
Benediction.

DEATH CLAIMS

CHARLES NEWCOM

Charles T. Newcom died at the home of Judge E. Jeffrey Travis Tuesday evening, after several months illness of tuberculosis, aged about 37 years. Funeral services were held Thursday by Rev. C. T. Boucher at Bells Mines cemetery, where the remains were laid to rest.

Mr. Newcom is the son of the late Hall and Eliza Newcom. He is survived by his wife, who before marriage was Miss Lydia Culley; also by three brothers, Guy, Iley and Ernie of Union county; a half brother, James, and half sister, Mrs. Mattie Cusie, both of Union county.

—I now have my APPLES sorted. Anyone wishing apples can get them by leaving us their order. F. W. NUNN.

ANNUAL BANQUET NEXT THURSDAY

High School Football and Basketball Teams to Be Guests of Honor at Banquet

The annual banquet in honor of the High School football and basketball teams will be held Thursday evening December 21st at 7 o'clock at the basement of the Methodist Church. Plates will be sold at \$2.00 each and those who desire to attend and who have not been approached by the committee can leave their request for a seat at the banquet with Mr. Stephens at Cochran Hardware Store. Needless to state there will be plenty to eat, lots of inspiring music and just the right kind of speeches. On this occasion the football team will elect next year's captain and letters will be awarded to the members of the squad who have earned them.

MRS. WILMER SPEES DIES

Mrs. Grace Spees, wife of Wilmer Spees, formerly of this city, died on Wednesday, December 6, at a Louisville hospital, aged about 30 years. The remains were brought here on Friday and conveyed to Hopewell cemetery, near Lela, for burial.

Mrs. Spees before marriage was Miss Grace Williams and is survived by her husband and one daughter, Miss Marietta Spees. Wilmer Spees is a nephew of Jailer J. C. Spees, of this city.

MRS. JAMES PASSES AWAY

Mrs. Cora James, wife of John James, died Sunday evening, December 10 at her home near town, aged about 26 years.

Funeral services were conducted by Rev. W. T. Oakley, following which the remains were laid to rest at Love cemetery.

Mrs. James is survived by her husband and two children.

CHILD MEETS TRAGIC DEATH

Little Virgie McDowell Killed By Runaway Horse Last Thursday

Little Virgie McDowell, the nine-year-old daughter of Mr. and Mrs. Ed McDowell of this county, met with a most tragic death Thursday evening of last week.

After her father had come in from work the little daughter ran out and asked to let her ride one of the horses to water. He placed her on the back of old Bird, the horse she had ridden many times before, let her through the gate and she rode off toward the pond. Soon the horse began to run and the little girl could not manage him. She was thrown from the animal's back and in the fall she caught in the gearing and was dragged over the ground some distance before her father was able to come to her rescue. She died from the effects of the injuries in a few minutes.

WEDDINGS

The County Clerk has issued marriage licenses to Willis Shoecraft and Miss Grace Ladd.

Amazoo Johnson and Miss Addie Pickens.

Ollie Phin Croft and Miss Mabel Sigler.

NOTICE

All persons having claims against the estate of W. I. Clement, deceased, are hereby notified to file same with Forrest Harris, Master Commissioner of the Crittenden Circuit Court, on or before February 1, 1903. J. E. SULLENGER, Clerk Crittenden Circuit Court.

Mrs. R. W. Croft returned Sunday from Louisville, where she purchased Christmas presents for the Methodist Sunday School.

BIRTHDAY PARTY

On last Monday Dec. 11, Miss Geneva James celebrated her sixteenth birthday. There were sixteen girls present and she received sixteen useful gifts.

The dining room was beautifully decorated and the dinner was wonderful. Those who enjoyed the delightful dinner were: Misses Murriel Davidson, Ruth Paris, Clessie Agee, Evelyn Wring, Wilma Paris, Mildred Allison, May Davidson, Lucile Paris, Isabelle Hughes, Geneva James, Grace Crayne, Gladys Paris, Julia Davidson, Irene Riley, Mary Elizabeth Hughes, Winona Newbill.

WOOD FAMILY REUNION

Mrs. Elizabeth L. Wood, of the Fords Ferry section, celebrated her 85th birthday Sunday, December 3, by having a family reunion at her home, at which her three children, four grandchildren and two great grandchildren were present. A number of other relatives and friends also enjoyed the occasion. Her children present were: Ira M. Wood, of East Prairie, Mo.; J. H. Wood and Mrs. H. P. Daniel, both of this county.

SLIGHTLY INJURED BY AUTOMOBILE

Little Joseph Boswell, the three-year old son of Mayor Bebe Boswell and Mrs. Boswell, was slightly injured Monday by an automobile while the child was crossing the street in front of the Boswell home on Belleville Street. The car was driven by Mr. F. O. Butler and the accident is reported as unavoidable.

GOOD NEWS FOR OUR SCHOOL TEACHERS

According to a statement given out by the State Board of Education, the public school teachers this year will receive their pay for December on the 22nd, instead of at the close of the month, the usual time of payment. This is done that the money may be available for Christmas buying.

GETS DIRECTORY FROM BOARD

L. E. Guess Receives Birth and Death Directory from State Board of Health

County Clerk L. E. Guess received from the State Board of Health last week the Birth and Death Directory in nine volumes, covering the birth and death records in this state from 1911 to 1916. It gives the name of every child born and of every person who died within this period. The directory contains the names of more than 500,000 persons. The nine volumes have been compiled from the archives of the State Board of Health and each County Clerk is furnished a set which he is required to keep as part of the archives of his office. They are very valuable in such matters as settling estates and fixing exact ages in connection with entering and leaving school and establishing personal privileges where the facts of birth and death are involved.

Mr. Guess asks all interested persons to come in and examine these records.

CARD OF THANKS

I wish to express my heart felt thanks to the people of Blackford and Repton for their sympathy and kindness to me during the sickness and death of my beloved husband, J. P. Perry. May God bless you all. MRS. J. P. PERRY

STRIKES SPAR MINE

Mr. Jesse Perryman, residing on Tou Star Route, has struck a good sized vein of fluor spar on his farm and will, he reports, begin to work it at once.

NOTICE

Elizabeth M. Clement, &c Plif. vs Belle Clement &c, Deft.

By virtue of an order in the above stated suit referring same to me as commissioner to take proof of claims and report same by the 1st of Mar. 1923, therefore all persons holding claims against the estate of W. I. Clement, decd., are notified to appear before me at my office in the new Frisby building and report said claim properly proven on or before the 20th day of March 1923. T. F. HARRIS, Commr.

FARM FOR SALE

A farm of 71 acres 6 1-2 miles south east of Marion 1-2 mile to school, church and store. Good house and stock barn and tobacco barn. Well watered, 30 acres in grass, 20 mowed this year. If interested see EARNST TACKWELL, 1 Marion, Ky., Rt. 1.

SHERIDAN

Miss Virginia Wharton of Trigg county is teaching a successful school here.

Jim Robinson has returned from Paducah where he underwent an operation in a hospital.

Mrs. Sue Yates was the guest of her daughter, Mrs. Lena Hughes of the Franklin Mines Saturday.

Dr. Waddell of Salem was in this section Wednesday.

Mrs. Terry Stephenson visited her son, Rodney Stephenson and family Tuesday.

Mrs. Charlie McBride who has been very ill for some time is now able to be out again.

Albert Sweat and wife were guests of Anyd Love and family Sunday.

Miss Virginia Wharton spent Saturday with Miss Marjorie Stephenson.

Mrs. Hannah Minner spent Saturday night with Mrs. Ben Enoch.

Glen Station has moved to Mrs. M. Whitecotton's farm.

Mr. Robt. Hughes and wife were guests of her parents, Mr. and Mrs. Newt Station, Sunday.

Miss Kate Hurst, who has been in bad health is slowly improving.

Common Sense Business Review Editorial

Edited by ROLAND KEMPER

NOTE: These editorials have been compiled with the express purpose of showing the people of this section of the state what some of their home industries have to offer. The elimination of much foreign competition will have to be brought about if Crittenden County is to prosper and be a power in Western Kentucky. The editorials contain facts and the people who feel that they are not too old to still be enlightened on things will find in reading these articles a new angle to work upon.

W. O. TUCKER FURNITURE CO.

A furniture store, when one stops to deliberate furnishes the essentials that go to make a home out of a house. The making of a home, I must admit, necessitates favorable relation between man and wife. But a Perfect home only comes with husband and wife being agreeable and also enough furniture in the house to make it comfortable and beautiful. From this fact then we turn to the man who offers to the public this necessary part of the home and place more prestige on his business.

Mr. Tucker who conducts a furniture store bearing his name is another business man who realizes that only a long as he gives a real service to the public will his establishment function in a successful manner. This is an important fact for the people of this section of the state to know, because a knowledge of what basis he is depending on for success, insures them of having at their disposal a furniture store that is fully stocked with goods of a high standard at reasonable prices. An inspection of the store by the writer of this article disclosed many unexpected things. They are too numerous to mention but the outstanding general impression was that it is modern, offers a variety of products and that prices were indeed reasonable when the quality of goods was considered.

We wonder why some people believe they have to go Paducah, Evansville or some other larger city than Marion to procure furniture. Some do however, but when this happens, it's a case of not taking time to look over what the home concern offers.

Mr. Tucker has left nothing undone to secure many articles in his store that will make practical and appropriate gifts for the holiday buyers. A word to the wise should be sufficient.

Mr. Tucker also conducts an undertaking establishment. During the time he has been identified with the professional life of the community he has kept in touch with all that is new in the way of equipment but he is thoroughly abreast of the times relative to the latest scientific ideas on embalming. Courteous and efficient to a marked degree, he has won the confidence and heart felt commendation of many clients who have found great satisfaction in being relieved of the many troublesome and vexatious details in the time of sorrow.

J. N. BOSTON & SONS

Located in Marion is a modern and up to date building material company that has aided greatly in the development of Crittenden county. Their buying power enables this concern to go into the largest markets and secure large quantities which are offered at reasonable prices. Their mill work is unexcelled and their business is built upon years of good service.

By reason of their improved and modern facilities and the large number of employees which they maintain they are able to execute all classes of work and to furnish unexcelled service with promptness and dispatch. By reason of the tremendous buying power this local concern is able to enter the worlds largest markets and secure vast quantities at prices so low that they offer the public astounding values in lumber and building supplies of every description. The tremendous power of such large buying cannot be too emphatically stated. It gives this local concern a prestige and an advantage which accrues to the benefit of all its customers.

Shingles, doors, casings, sidings, roofing and a few of the builders materials included in the stock of this large concern, suffice to say that they have absolutely everything that there is in the lumber and building material line and that their mill work is of a class unsurpassed by any of the kind in the country. Throughout this part of the country it has come to be known as headquarters for all of these many things and by fair and honest dealings with the public, the company has not only increased its patronage but held the trade of old customers for years.

Mr. J. N. Boston and his two sons are thoroughly conversant with every feature of the business and the large establishment which they manage. These popular men have won the everlasting friendship and patronage of hundreds of customers. Able and efficient, but at the same time genial and accommodating they have become the prominent men in their line in this section and deserve the success that they have achieved and the commendation that is being given them by the public.

The industrial end of this concern has had an unusual growth. It has handled the contracts of practically all of the buildings for the West Kentucky Coal Co., the Morganfield National Bank and practically every big building and residence in that city. It is evident that complete satisfaction has been rendered by this branch. Mr. M. N. Boston has charge of this department, to us it seems a more capable man could not be found in this line.

MARION MILLING CO.

In making my business survey of the bigger industries of Crittenden County I find this concern occupying a prominent position in its line of products. It is only when one realizes the fact that bread is the staff of life, that the quality of the contents of this food is given much consideration, but with this knowledge of the important part bread plays in the health of our people it seems to me that rare discrimination should be given when it comes to the purchasing of flour and other breadstuffs. A flour for example that has a look of fluff will not make as light a bread as the careful housewife demands, and on the other hand a flour that is lacking in the proper bleaching process is not white consequently a dark bread is the result from its use. I find that the Marion Milling Co. has left not a stone unturned to produce in "SWAN" their famous brand of flour, both of the qualities that have been discussed in this paragraph. This is a triumph in the modern milling industry and the proprietors of this mill in the rendering of this service to the people of this community are deserving of any amount of praise.

The men who operate this concern know that the success of their business is based upon the service they give their patrons and it is with this view in mind that they are ever striving to build this business on—and again the interests in this business are well aware of the fact that a letting down in the quality of their products will enable other concerns in the field to soon have their business.

So it seems to the writer that the housewives who are not already using Swan would do extremely well to investigate the quality of this home product. If found good, which I believe will be the case, then use and boost it with a vengeance.

—FOR CHRISTMAS Give the new EDISON, A life time companion. G. W. YATES.

Make This Christmas One of Useful Gifts and THIS STORE YOUR GIFT SHOP

You Can Please ALL the Family if You Will Do This. The Entire Store Is Full of Useful Gifts that Will Satisfy --- Not Only Useful But Beautiful, Also.

NOTICE TO CONTRACTORS

Sealed bids will be received by the State Highway Commission at the office of the State Highway Engineer Old Capitol Building, Frankfort, Kentucky, until 2:00 P. M. on the 20th day of December 1922, for the improvement of the Louisville Paducah road from the corporate limits of Marion Sta. 10565 plus 07 to the Livingston county line Sta. 11018 plus 05 in Crittenden County a distance of approximately 8.3385 miles.

This road is officially known as State Project No. 8 Sec. A on the State Primary System in Crittenden County. This project is also known as Federal Aid Project No. 91. Sec. A. This improvement will consist of shaping the road, constructing necessary drainage structures to a width of 24 feet on fills and 30 feet in cuts as a Grade & Drain project in accordance with approved plans and specifications.

Instructions to bidders, forms of proposals and specifications may be secured at the office of the State Highway Engineer, Old Capitol Building, Frankfort, Kentucky.

Blue prints of this work on file at the division headquarters at Paducah, Kentucky, also at the Court House at Marion, Kentucky. Contractors desiring to obtain copies of plans may secure same from the Department of State Roads and Highways by forwarding check of \$15.00 for complete sets of plans or any part of same at the rate of 20c per sheet, made payable to the State Treasurer, credit of the State Road Fund.

Each bidder must accompany his bid with a bond or certified check for \$5,000.00 payable to the State Treasurer, credit of the Department of State Roads and Highways.

The right is reserved to reject any and all bids.

Division Engineer will meet prospective bidders at the Court House in Marion on Dec. 16th, at 9 A. M. to show them over the project.

3. No proposal will be considered unless attached questionnaires are properly filled out, signed and sworn to unless same have previously been filed with this office.

IN MEMORY OF WENDELL AGEE

Wendell is gone but not forgotten,
Near will his memory fade.
Sweetest thoughts shall ever linger
Around the grave where he was laid.
We loved him, yes we loved him,
But the Savior loved him more
So the Angels came and took him
To that bright eternal shore.
A gentle voice said come
The golden gates were opened,
And with farewell unspoken,
He calmly entered home.
It was hard to part with Wendell,
O so sad to see him go,
But we will try to meet him on that
bright and happy shore.
His Aunt Flora.

OBITUARY

We are again reminded that in the midst of life we are in death. When we received the sad news that the death angel had visited the home of Mrs. Lillian Perry of Princeton and snatched from her fond embrace the loving husband and father, John Presley Perry. He was born August 16, 1893, departed this life Nov. 17, 1922, age 30 years, 3 months and one day. He was the youngest son of Mr. and Mrs. W. T. Perry of Blackford. He was married to Miss Lillian Bennett, the youngest daughter of J. W. Bennett, on Nov. 18, 1920. To this union was born one baby boy.

Press as he was always known by, had worked on the I. C. R. R. for several years. A short time ago he was promoted as conductor. Last March he got his foot mashed while out on a run. He was in the I. C. Hospital at Paducah eight weeks and had just been back at work about two months. On Saturday Nov. 11, he made a run to Evansville and hurt his knee some way getting on or off the train, he came back to the home of his parents at Blackford where he died the next Friday blood poison having set up. He professed faith in Christ at Blackford in 1907 and joined the C. P. Church. All that loving hands could do was done. It was a brief life but how sweet and lovely its beauty and fragrance shall linger many a day to cheer and brighten our way. His place is vacant. He was so suddenly snatched from us. Weep not dear wife, dear parents and brothers when there is a promise the dead in Christ shall rise again. It is true that for a lit-

tle while there will be a vacant place in our home here but let us remember there is a place waiting for us in the mansion prepared for God's children. The sweet voice some day shall be heard again. He leaves besides his wife and baby, his father and mother two brothers.
He was taken for burial to Repton where services were conducted by Rev. J. R. King at the Baptist church. The pall bearers were the railroad boys he had worked with so long.

He was taken for burial to Repton where services were conducted by Rev. J. R. King at the Baptist church. The pall bearers were the railroad boys he had worked with so long.

BELMONT

EDUCATION PAYS BIG.
An investigation of the income of 664 farmers in one county of Missouri, made by the Missouri college of agriculture, showed that the educated farmer's income was 71.4 per cent larger than that of the untrained farmer. A survey of the incomes of 665 farmers in seven counties of Kansas, made by the Kansas State Agricultural college, showed that the trained farmer has a greater income by nearly \$1,000 a year than those of farmers with a common school education. The United States Department of Agriculture reports a survey of three representative areas in Indiana, Illinois, and Iowa. It is shown that tenant farmers with a college education received an average labor income of \$453 more a year than the man with a high school education and \$979 more a year than the man with only a common school education.

Cornell university reports that men having more than a high school education received \$225 more a year than farmers with a high school education and \$529 a year more than farmers with a common school education. They also report that 5 per cent of the farmers with a district school education had labor incomes of more than \$1,000, and that 20 per cent of the farmers with a high school education had labor incomes of more than \$1,000. Thirty per cent of the farmers with more than high school education had labor incomes of more than \$1,000. A high school education is worth as much to the farmer as \$6,000 worth of five per cent bonds. A college education is worth twice as much.

Someone has estimated that if a married woman, during a period of 30 years' married life, has attended to the ordinary duties of the household, she has served nearly 500,000 meals, has put up more than 3,000 jars of preserves, devoted about 35,000 hours to sweeping, washing and scrubbing, and so on at some length. Then this investigator has figured that, at accepted prices for this work, it is worth considerably over \$100,000, and he asks the question, "Why cannot she retire on her savings?" And he answers his own question by asking another one, as follows: "How do you define the ordinary woman's contribution to her family wealth?"

An enterprising Parisienne has opened a millinery establishment with the interior appearance of that celebrated one-story place in Paris, "A la Belle Anglaise." The original little shop stood from 1765 till some few years ago in the Place St. Philippe du Roule, and was famed throughout Europe. Its clients had included Marie Antoinette, Princess de Lamballe, Madame Recamier, Pauline Bonaparte and Elizabeth Foster, duchess of Devonshire. To these was added one distinguished male customer, M. de Chateaubriand, who preferred over all others obtainable elsewhere, the cravats sold at the little milliner's.

If its schools are not among the most vital concerns of a nation, they had better be, because its schools are among its chiefest safeguards for future welfare and happiness, says the Detroit Journal. If we do not progress through the schools, our progress will be one-sided at best; and it is only when the responsibility of developing and directing the schools is shared by actively participating parents within the community, that the best educational results may be obtained.

A doctor says it was eight times as dangerous during the war to be a baby in a cradle than to be a soldier in the trenches. Wasn't it Mark Twain who said the bed was the most dangerous place, because almost everybody died there?

Less sugar per inhabitant than salt was used in the United States last year. Others who are good at statistics declare that if sugar were credited with the salt that got into sugar bowls it would be about a standoff.

College coaches are to have the rank of members of the faculty in some institutions of higher learning, thus validating the title of "professor" that so many athletic instructors already wear.

Said a soviet official: "There is not a Russian who has lived in America, now back in his native land, who would be willing to return to America." All small favors thankfully received.

COMMISSIONER'S SALE
Crittenden Circuit Court, Kentucky
Wm. Redd, Plaintiff,
Against
Equity

Bidders will be prepared to comply with these terms.

T. F. HARRIS,
Commissioner.

Clown.
Chew Chew, a health clown, makes the rounds of New York city schools, spreading the gospel of fresh air, proper food and cleanliness.

With him is his little dog, Creamo, whose stunts include pawing his face as if washing when asked what he does in the morning.

The school children are going wild about Chew Chew and Creamo. They are absorbing health facts, because the presentation is made in an interesting way. And they will remember the health clown and what he taught, in their old age.

Making school interesting is the greatest problem of education. People in this horrid civilization remember interesting things, forget the uninteresting.

Fish Eradicates Scarlet Fever.
The Mexican version of "have you a little fairy in your home" is "have you a little fish in your home?"

This arises from the use of a peculiar fish, of the mammalian species, that eats the mosquito larvae and "wigglers" in water, thus preventing the spread of yellow fever. All bodies of water in the city are stocked with the fish, which are provided by health authorities. In this way the mosquitoes are kept down and yellow fever almost eradicated.

World's Largest Boiler.
A boiler capable of heating 1,000 eight-room houses has just been placed in operation in Detroit. It measures 19 by 26 feet inside, and the height from the grate bars to the top of the pipe coils is 35 feet. It can turn 100,000 pounds of water into steam in a single hour, requiring 12 tons of coal to accomplish this feat.

Water Lilies as Food.
From the Iowa conservation board comes the suggestion that we grow water lilies as a staple article of food. It is claimed that the lily, when peeled and boiled, is as farinaceous and taste-ful as the potato.

FLIES DECREASE MILK YIELD
Spraying Furnishes Means of Relieving Cow For the Time and Saves Temper of Milker.

The irritation of cows caused by flies not only lessens the milk produced, but, due to the restlessness of the cows, is a frequent cause of inefficient milking.

The fly spray furnishes a means of relieving the cow for a time at least and of saving the temper of the milkers. The following fly repellent mixture is recommended:

Four and one-half quarts of coal tar dip, 4 1/2 quarts of fish oil, 3 quarts of whale oil, 1 1/4 quarts of oil of tar and 1/2 ounce of oil of pennyroyal. Dissolve 3 pounds of laundry soap in water, add the ingredients of the spray and bring the whole up to 30 gallons with lukewarm water.

This quantity will spray 40 cows twice a day for 10 days. The spray should be applied in the morning after milking and in the afternoon when the cows are in the barn for silage or green feed.

RELIABLE SOURCE OF PROFIT
Dairy Cow is More Dependable Than Beef Steer Because Her Products are Steady.

The dairy cow is a more dependable source of profit than the beef steer, because her products are but slightly affected by market fluctuations and because she is a continuous source of revenue, for the cream or milk checks come in at frequent intervals. Then, too, there is an increasing demand for dairy products and for grade and purebred dairy cattle.

Most Profitable Cow.
One good cow is more profitable than several poor ones.

Sterilize Milk Utensils.
For the proper sterilization of dairy utensils an abundance of steam or hot water is needed. Immerse them in boiling water for two minutes, or put them in a tight closet and thoroughly sterilize with steam for thirty minutes.

Way to Improve Dairy.
Replacing the low-producing cows with better ones and later with pure breeds is only one of the ways in which a dairy improvement association helps a community.

Congress Must Complete Ohio River Canalization in Five Years is Decision

Ohio Valley Improvement Association Outlines Program For Continuous Contract Plan of Work.

Completion within five years of the twelve locks and dams which will insure the nine-foot stage of the Ohio river at all times and free navigation from Pittsburgh to Cairo is the aim of the business interests of the Ohio Valley cities.

Strong appeals are being made to Congress to hasten this most desirable objective, and the experience of the past year, when the entire industrial section of the Midwest was held in subjection by reason of the rail and coal strikes has shown to the business interests the futility of longer delay in making the Ohio river a real artery of transportation.

The organ for this agitation is the Ohio Valley Improvement Association, whose executive committee met this week and took aggressive action toward the crystallization of sentiment of the cities along the river and the entire area which is tributary to that great waterway.

Advice of the U. S. Engineers has been obtained which is to the effect that by the adoption of the continuous contract plan the work may be so authorized by Congress that the Engineers may carry on construction uninterrupted and complete the entire project within the next five years. To do that, it will be necessary to have annual appropriations of as much money as the Engineers find necessary to carry on their operations, and they must be vested with full authority to put into execution the continuing contract plan, under which all work can be placed under contract to be paid for from certain future appropriations.

The importance of this work to the commerce of the nation is so great it is asserted by authorities of the transportation world, that the question of cost is hardly to be considered when the lasting benefit to the people at large is taken into consideration. The important factor in this argument, it is pointed out, is that the Ohio River is not a stream in which the people of a single section of the United States are interested.

17 per cent on the investment to the shippers, without counting the saving of \$2.50 a ton on their operations.

In forwarding the development of the Ohio River, the Ohio Valley Improvement Association is taking the lead in urging all communities to take up the subject of installing water-to-rail terminals.

Another important factor in the development of traffic along the Ohio River is that under the law the Interstate Commerce Commission has made regulations whereby the rail carriers must publish tariffs and rates for division of business with water carriers wherever the shipper desires to utilize water routes and where such regular water routes are available for commerce. Already the Mississippi-Warrior service, which is a barge line facility between St. Louis and New Orleans, and from New Orleans up the Warrior River to Tuscaloosa, and other Alabama cities has applied for division in rates between its barges and the rail lines serving the Southeastern territory, making connections at Memphis, Cairo, Vicksburg and Natchez on the east bank and to western and southwestern connections on the west bank of the Mississippi River which will influence the movement of millions of tons of freight and effect a saving of hundreds of thousands of shippers in the territory affected.

When the canalization of the Ohio River is completed there is said to be no reason why such favorable division cannot be made for cities of the Ohio Valley, and especially so if these cities provide themselves with water-to-rail terminals which will effect quick and economical delivery of tonnage at their waterfronts.

Freight tonnage by barges already established through locks and the open river on the Ohio has reached a very considerable figure, according to the data furnished by the Chief of Engineers of the U. S. Army. In 1921 this freight of the Ohio River amounted to 7,307,880 tons, of a value of \$13,274,814. In 1920 the amount was even greater, being 9,382,463 tons,

SHERIFF'S SALE!

By virtue of order of sale directed to me, which issued from the Clerks office of the Crittenden county Court, in favor of Marion Hardware and Grocery Co. against Dewey Gray, for the sum of seventy-one dollars and 10 cents, I, or one of Deputies, will, on the 8th day of January 1923 between the hours of 10 o'clock A. M. and 2 o'clock P. M., at the store room, where located in Crittenden county, Ky., expose to PUBLIC SALE to the highest bidder, the following property (or so much thereof as may be necessary to satisfy Plaintiff's debt, interest and costs) to-wit: 180 chairs, Two Picture Machines, One Oil Tank, One Rewinder in Marion, Ky., levied upon as the property of Dewey Gray.

TERMS: Sale will be made on a credit of three months, bond with approved security required of the purchaser, with interest from date at the rate of 6 percent per annum, and having the force and effect of a judgment.

Witness my hand, this 2nd day of December, 1922.

JAMES T. WRIGHT, Sheriff C. C.

OFFICE AND COAL YARD NEAR DEPOT

A DAM ON THE OHIO RIVER

Almost a century ago, the great Commoner from Kentucky, Henry Clay, declared the Ohio River is the great transportation line between North and South, and its improvement by the nation was of utmost importance to the United States as a whole.

What this far-seeing statesman predicted has come to pass in even greater measure than he could conjecture in his fondest dreams, for the Ohio River, canalized and made navigable with a nine-foot stage at all seasons of the year will, in the opinion of transportation experts, bear upon its simple bosom transports of goods which are destined to the ports of the seven seas.

Already through the completion of the 80 locks and dams of the proposed system of 51 locks and dams transportation between Pittsburgh and Louisville, a distance of more than 350 miles, will have been made possible by the end of 1924. And operations on the river for this distance for a period of 250 days of the year are possible with the locks and dams now in operation.

It was pointed out that when the initial appropriations from Congress were obtained for the canalization of the Ohio River in 1906 it was stated that by 1922 the entire system of 51 locks and dams would be completed and in operation. The year 1922 has come and the nation is on the threshold of 1923, and it is feared that unless immediate action is taken ten years will roll by before the magnificent project may be realized.

Only recently a survey of this rail-to-water terminal situation was completed by George W. Breiel, Engineer of the Cincinnati Chamber of Commerce, in which he visited and obtained records of operations on facilities at St. Louis, Louisville, Evansville and Nashville. These showed that in the handling of such heavy commodities as steel, tubing, casing, cement, stone and heavy machinery it was possible to save as much as \$2.50 a ton in the cost of transportation charges for delivery of freight from barge to cars and vice versa.

This information was obtained with a view to establishing an experimental facility for Cincinnati industries in which it is intended to invest upwards of \$75,000. The data compiled by Secretary Breiel showed that with a gantry crane with a capacity of loading and unloading a maximum of about 900 tons a day and serving about 28 barges such a facility would return about

with a value of \$223,443,401, moved by barges and steamers. This is an increase of 3,000,000 tons over 1916, when the improvements to the upper river were first made available.

Business economists say that this tonnage is nothing compared to what can be developed for Pittsburgh, Cincinnati, Louisville, Evansville, Pomeroy, Portsmouth, Paducah, Owensboro, Henderson, Huntington, Wheeling, Parkersburg, Charleston, Cairo, Madison, Marietta, Ironton, Mayville, Ashland, Cattsburg and other cities on the Ohio river and its tributaries. If the facilities were furnished whereby tonnage could be cheaply and adequately handled by water carriers and transferred to rail carriers at suitable transfer points. The greater portion of the tonnage developed is from the great Pittsburgh district which produced 23,195,943 tons in 1920, of which but 9,382,463 moved by water to destination.

This is exclusive of the millions of tons of coal from the river and rail mines of the West Virginia and Kentucky districts which with proper water facilities and a steady stage of the river at nine feet would ship steadily, so that no rail strikes would ever cause such famines and distress as has been experienced in the past six months.

No thought of antagonism to the rail carriers is in the minds of the river traffic boosters in their plans of waterway development. Co-operation with all established industries is the watchword of the men who seek to place the Ohio river on an all-the-year-round navigation basis with a nine-foot channel minimum. It is their idea that the development of water facilities is an additional service to the world of transportation which is already overburdened and several decades behind its ability to take care of the business offering.

Waterways, railways and highways are the trinity of transportation in the opinion of the men behind the policies of the Ohio river improvement and the motto of these broadminded pioneers of valley development is from this time on "We Co-operate." With this watchword of progress the association has incorporated its message to Congress which will be the slogan of the present campaign for the adoption of the Continuous Contract Plan for the completion of the river improvements, and the slogan is "Close the Gap."

Our Basement

Our Big Downstairs Store is overflowing with Christmas merchandise. Gift selections from popular priced goods is a feature of our Basement. You'll enjoy shopping here.

YOU CAN SUPPLY YOUR EVERY CHRISTMAS NEED AT RUDY'S

AN ORDINANCE

BE IT ORDAINED by the Mayor and common council of the city of Marion, in the County of Crittenden and State of Kentucky:

Section 1—That consent, permission and authority be, and the same is hereby given and granted unto the purchaser of this franchise, and to his, or its, successors, lessees and assigns, for and during the period of twenty years from and after the date of sale of said franchise, to erect and maintain the necessary poles, wires and other equipment and appliances therefor, and to construct upon said poles all necessary wires, conduits and equipment, and to construct and maintain any and all necessary conduits, cables, wires, apparatus or equipment by which electricity may be transmitted, used, conveyed and distributed for light, heat and power purposes, and for any other purposes for which electricity may now or hereafter be used, in, along and upon all the streets, alleys and public places and parts thereof, in the city of Marion, county of Crittenden, State of Kentucky.

Section 2—The electric system hereby authorized shall be constructed upon the most approved plan and maintained in a substantial and scientific manner, and said purchaser shall not obstruct or interfere in any manner with the present or future drainage of the said City. No water pipe, telephone pole, electric light pole, or fire alarm wire or pole, now or hereafter erected or constructed shall be disturbed or interfered with in the construction, operation or maintenance of said system by said purchaser, its successors, lessees or assigns. All customers' service wires erected or installed by said purchaser, under the provisions of this ordinance shall be insulated. All poles erected pursuant to this ordinance shall be located and placed under the direction of the Committee on Streets and Alleys. Any pole shall be promptly re-located by said purchaser, its successors, lessees or assigns, when such re-location is deemed necessary by said Street committee and approved by the city council. No tree or trees located in any street, avenue, alley or public place in said City shall be trimmed by said purchaser, its successors, lessees and assigns, unless permission to do so has been first obtained from the Mayor or the Committee on Electric Light, except in such cases where it is apparent that there is serious and imminent danger to life or property, and when such conditions exist, said trees shall be trimmed only to such extent as is required to prevent or avoid such imminent danger. Said purchaser, its successors, lessees and assigns, shall elevate or cut said wires and appliances when necessary for the moving of a building along the streets, avenues, alleys and public places of said city and when a notice that such elevating or cutting is necessary has been served upon it, or them, at least twenty-four hours prior to the time such elevating or cutting is required to be done, by the Committee on Streets and Alleys, or by the Mayor of said City. The entire cost and expense of such elevating and cutting shall be borne by the person or persons whose house is to be moved, such bill of expense to be approved by the City Council as to the correctness of the amount charged for the actual expense for labor and material furnished by the lighting company.

Section 3—Said purchaser shall be, and is, authorized and empowered to lay, construct and maintain such water pipe and pipes, in, under, along, and across the streets, alleys, avenues and public places of the City of Marion, Kentucky, as may be necessary or convenient for the purpose of obtaining water for the operation of its system of works; to acquire and hold as by law authorized, any and all real estate, water and other rights necessary for said purpose; to use within the present and future limits of said municipality any and all streets, alleys, avenues and public places, ways, or ground as now or may be hereafter laid out while constructing or operating said electric system of works, and to cross any stream in said city for the purpose of constructing, maintaining, or extending such wires, pipes or other apparatus as may be necessary or convenient for the proper manufacture or distribution of electrical energy in or through said municipality; also to make such contracts for the use of such electrical energy as may be agreed upon.

Section 4—In case it shall be necessary in any work of installation under this ordinance to open or break through into any street, avenue, alley or public place, the said purchaser shall promptly restore such street, avenue, alley or public place to the same condition in which it was, subject to the approval of the Committee on Streets and Alleys in

said City, and where the street, avenue, alley or public place is paved, such replacement shall be the same character as the pavement torn up or interfered with, and shall at all times properly guard by red lights at night, and at all times provide proper signals or guards for all work as it is in progress, and take all other necessary and proper precautions to prevent accidents during the progress of such work.

Section 5—The said purchaser shall save, indemnify and keep harmless the said City of Marion, Kentucky, during the entire period covered by this ordinance, against all damages, claims for damages, and all judgments, decrees, costs, attorneys' fees, and expenses in any wise incurred, recovered, or obtained against said City caused by reason of the installation, maintenance and operation, or either, of any such poles, wires, conduits, cables, apparatus or equipment, or by any reason or any act done by the purchaser under this ordinance or otherwise, and said purchaser shall promptly pay any and all such damages, judgments, decrees, costs, attorneys' fees and expenses which said City may in any wise suffer or incur or which may be recovered or obtained against said City, the purchaser reserving the right to be made a party to any litigation arising herefrom.

Section 6—The rate to be charged by said purchaser, its successors, lessees or assigns for current used in lighting residence, store buildings and such like shall be not more than fourteen (14) cents per kilowatt hour as registered on a recording watt meter installed on the consumers' premises. It is further provided that where a customers' bill is less than One Dollar (\$1.00) for any one month, the purchaser, its successors, lessees or assigns, shall render a bill for One Dollar (\$1.00) which shall thus be considered a minimum bill for one month. The consumer shall furnish his own meter for measuring electric current, which shall be of standard make and shall remain the property of the consumer. The purchaser of this franchise, its successors, lessees or assigns shall install all meters without charge to the consumer. The properly authorized Agents of the purchaser shall, at all reasonable hours, be allowed access to all customers' meters for the purpose of reading, examining, testing or removing for repair of same.

Section 7—The City agrees to contract with the purchaser, its successors, lessees or assigns, for all its street and public lighting during the term of this franchise, and the purchaser, its successors, lessees or assigns, agrees to supply the City with such lights for streets as it may wish to contract for at the following maximum rates:

For each 500 watt incandescent light burning on a moonlight schedule per year \$48.00; for each 400 watt incandescent light burning on a moonlight schedule per year \$42.00; for each 300 watt incandescent light burning on a moonlight schedule per year \$36.00; for each 200 watt incandescent light burning on a moonlight schedule per year \$28.00; for each 100 watt incandescent light burning on a moonlight schedule per year \$20.00. The purchaser, its successors, lessees and assigns agrees to supply the City with as many additional lights at the above rates as the City may demand, said demand not to exceed one light per month, said lights to be located under the supervision of the Light Committee, provided the minimum rate for lighting the streets shall not be less than TWO HUNDRED DOLLARS (\$200) per month.

When said bill exceeds the said minimum of Two Hundred Dollars, the purchaser, its successors, lessees, or assigns, shall render a bill to the City for street lighting monthly, basing each month's bill on one-twelfth of the annual amount shown by the number of lamps used by the City for the current month.

Section 8—If any customer shall fail to pay any bill within thirty days after its rendition, said purchaser, its successors, lessees or assigns, may cut off electrical service to such customer until all arrears, including cost of shutting off and reconnection for the resumption of service shall be fully paid, which cost shall not exceed two dollars (\$2.00).

Section 9—Said purchaser, its successors, lessees or assigns, shall maintain an office in said City for the first five (5) days in each month for the convenience of the patrons, where the bills shall be payable, and where any notices to the purchaser provided for in this ordinance may be given.

Section 10—All meters installed at any time shall be subject to inspection to determine whether or not it registers accurately, by some competent person or official who has been duly authorized by said Council of said City to make such inspection,

and if found defective shall immediately be repaired by the purchaser of this franchise, its successors, or assigns, who shall at all times keep a man or men located in said city fully competent and qualified to make any and all repairs upon any part of said system of works. Said purchaser, its successors, lessees and assigns, shall within a reasonable time after request therefor, connect its lines with the premises of any prospective customer located on its line, who complies with the requirements of this ordinance and the reasonable rules and regulations of said purchaser; and said purchaser shall thereafter furnish such customer with electricity on the terms and conditions herein provided.

Whenever the owners of property fronting any street, avenue or alley, or any portion of same now or hereafter in the city, shall petition, and consent as by law required, to have the line or lines of said system hereby authorized extended along said street, avenue or alley, or said portion thereof, beyond or outside of the place authorized, and the same can be reached by the lines hereunder constructed, without passing over intervening space not petitioned for as required by law, and the purchaser, its successors, lessees or assigns, shall be given at least two customers for each one hundred (100) feet of such extension beyond the lines heretofore constructed, the purchaser, its successors, lessees or assigns, shall thereupon promptly request the City Council for permission to make such extension in accordance with the terms of such petition or consents, which shall be filed with the City Clerk and thereupon such permission shall be granted in accordance with the terms and conditions hereof, and the purchaser, its successors, lessees or assigns, shall thereupon extend its lines or system accordingly and shall furnish electricity to customers or patrons on the line or lines of such extension under the terms and conditions of this ordinance; and thereupon this ordinance shall at once include and cover such extension.

Section 11—Said purchaser, its successors, lessees and assigns, shall and must connect each building and each apartment, store or flat in each building on such streets, avenues, alleys and public places where the system of poles, wires, and equipment shall have been installed under this ordinance, if the occupants of said building or flats or apartments shall desire to use electricity supplied at the rate specified in this ordinance, by service line to the nearest point in the walls of said building, flat, apartment or store at the expense of said purchaser, its successors, lessees or assigns.

Section 12—The charge per kilowatt hour for all electricity used by consumers for power purposes shall be made at a reasonable rate per kilowatt as shown by the meter. The purchaser, its successors, lessees, or assigns, will furnish electric current at the customers' connection at approximately 110 volts, for domestic purposes.

The purchaser of this franchise, its successors, lessees or assigns, shall keep a correct meter record of all current used for domestic purposes including current used for all purposes except for power and shall render a statement to the City Council at the end of each year for all current so used; and whenever the amount of current used for domestic purposes shall have increased fifty (50) percent over the amount of current used for said domestic purposes during the first year of the life of this franchise, then in that event the rate for all current used for said domestic purposes shall thereafter be twelve (12) cents per kilowatt.

Section 13—The purchaser, its successors, lessees or assigns, will further furnish electric current to all customers during the entire twenty-four hours of the day and continue same during the life of this franchise, turning off the current only as it may be necessary by reason of causes due to the acts of God, or other causes beyond its control, and for the proper cleaning and maintenance of the apparatus. Provided, however, such cleaning and inspection of apparatus shall be done as far as possible between the hours of 2 A. M. and 4 A. M. Provided further that a line may be shut down for inspection and repairs at other times in case of emergency.

Section 14—In the event of any damage caused by an act of God, a mob, civil commotion, or a public enemy, the purchaser, its successors, lessees or assigns, shall, with the greatest possible speed repair and restore its system and resume its operations under this ordinance. The compensation from the City to the said purchaser, its successors, lessees or assigns, shall be reduced and abated proportionately for any time that

said purchaser, its successors, lessees or assigns, may fail for any cause whatever to keep the streets, avenues, alleys and public places lighted in accordance with this ordinance. The said purchaser, its successors, lessees or assigns, shall at once place orders for the necessary apparatus, poles, wires, etc., and proceed with the installation of same with all dispatch, and have same in operation within six (6) months from the date of the sale of this franchise. The purchaser, its successors, lessees, or assigns, shall deposit with the Treasurer of said City the sum of TWO THOUSAND FIVE HUNDRED DOLLARS (\$2,500.00) or a bond of equal amount, as a guarantee of its good faith in so doing. Same to be refunded upon the completion of said system and commencement of service.

Section 15—The City agrees that it will not permit any other individual partnership, or corporation to transmit electric current through or over any of its streets, avenues, or alleys, after the completion of the plant provided for in this ordinance, without having first procured a franchise so to do, which franchise shall be sold under an ordinance of the City Council as provided by law.

Section 16—The purchaser of this franchise, its successors, lessees or assigns, shall be exempt from city taxation on said plant, equipment, buildings and real estate as may be necessary in the operation of said plant for a period of five (5) years from date of sale of said franchise.

Section 17—It shall be the duty of the Mayor of said City as soon as practicable after the passage of this ordinance, to sell at public auction to the highest and best bidder, the above franchise at the court house door in the city of Marion, Crittenden county, Kentucky, on some date to be fixed by him, after advertising same by publication for two (2) consecutive weeks in a newspaper published in the city of Marion, Kentucky, and making said sale he shall receive no bid for a less amount than the cost of making this order and all cost attending said sale and the cost of granting said franchise, including the cost of advertising. This sale to be subject to the approval of the City Council, and he shall report his actions hereunder at the next regular meeting of the City Council of Marion, Kentucky, after said sale.

Passed and approved, this 4th day of December, 1922.
BEDE BOSWELL,
Mayor, Marion Crittenden Co., Ky.
E. L. HARPENDING, Clerk
City Council, of Marion, Ky.

NOTICE OF SALE OF ELECTRIC LIGHT FRANCHISE

In accordance with the provisions of the Electric Light Franchise published in this paper, I will on Saturday, December 30, 1922 at 1 o'clock P. M. at the Court House in Marion, Crittenden County, Kentucky, expose to public sale to the highest and best bidder said franchise.

Terms made known on day of sale. No bid will be accepted for less sum than \$200.00, the estimated expenses incurred in connection herewith.

BEDE BOSWELL, Mayor

LEVIAS

Rev. T. C. Carter of Marion filled his appointment at Union Saturday and Sunday.

Mr. and Mrs. Grady Sisco were guests of her parents, Mr. and Mrs. Jasper Franklin.

Ernest Taylor and wife spent the Thanksgiving holidays with her mother Mrs. Maggie Love, near Siloam.

Elmo Watson returned from Detroit Mich., last Sunday.

J. H. Price visited Tuesday with his daughter, Mrs. Zetta Clark, near Marion.

J. H. Price and wife were recent guests at the home of Mrs. Maggie Love.

Mrs. Dona Snyder is the guest of her sister, Ada Watson.

Mrs. Clara aLroe and children spent the week end with relatives near Deer Creek.

Mrs. Mary Bigham went to Marion Sunday to visit her sisters, Mesdames Sallie Paris and uNiece Walker.

Mrs. Mary Belt returned from Paducah Sunday. She had been at the Riverside hospital two weeks for treatment.

Mrs. Mildred Settles and son spent last week at Clay.

Mrs. P. J. Gilles has gone to Kevil Ky., to visit her daughter, Mrs. Udie Jones.

Mrs. L. L. Price and daughter, Ethelyne, are guests of Mrs. Lena Settles.

Miss Sallie Sallenger spent the week end at home.

Mrs. Hugh Norris and Mrs. C. T. Settles were on the sick list last week but are reported better.

DR. F. W. NUNN

Dr. Nunn is a dentist, brave and bold. He pulls teeth without pain, we are told; You wonder how he does—now stop knocking, he does it with gas or by local nerve blocking. He fills many teeth and will put in a crown and builds bridges by crossing over or going around. He cleans your teeth and you can bet. If he thinks you need it, will make you a set. All the work that he does is guaranteed to meet all requirements and every need. But seriously speaking and not in fun, if you need dental work see DR. F. W. NUNN.

MARION COAL COMPANY

For the very best coal money can buy, give Marion Coal Co an order and they will try, to haul you a load down on the jump and furnish it either in egg, nut or lump. They only handle the very best coal, there is no better I believe to my soul, for it burns better and makes more heat than any other and is hard to beat in keeping your fire all night long, I'm trying to tell you, you won't go wrong if you go to your phone and call 225 and have a load sent down to you.

T. H. COCHRAN & COMPANY

T. H. Cochran and company, the hardware kings, sell pots and pans and harness rings. They will sell you stoves, both coal and wood. Anything you buy there is bound to be good. They will sell you a wagon, with or without wheels, and carry a line of the best automobiles. They are called the Quality Store and we really don't think we need say more except in conclusion we do declare you can't beat them when buying hardware.

BABB & FRAZER, RESTAURANT

Go to Babb and Frazer for good things to eat, the service there can't be beat. They serve short orders and regular dinner when you get a meal there it sure is a winner. They handle fruits, tobacco, anything in reason. Also oysters and game when they are in season. Everything served is very nice And best of all is moderate in price. So bear in mind when you come to town You can get the best meals here for miles around. A meal, you will say of the very kind, You've often wanted but could not find.

W. O. TUCKER FURNITURE CO.

W. O. Tucker comes last on our list and there's a good reason for this. That reason to you we will state, we think it very appropriate. For he's our undertaker, embalmer too, and about the last one that has dealings with you. But he will treat you right while you live, for he also deals in furniture neat and can furnish for you your home complete. He will treat you right as we before have said not only while living, but when you are dead.

F. O. BUTLER GARAGE

F. O. Butler is very large, but that's not the reason a garage. The reason he does—so we are told, is because he gives service whether it's hot or it's cold. And the people like it and come from afar. To have him make repairs on their car. And when the car repaired, the work is not bad, and he only charges a moderate sum. His gas and oil stand every test. And his accessories are the very best. So if you want your car made safe as a bank, Take it in and have it looked over by Big FRANK.

ROAD BUILDING

DISGUISED CRACK FILLERS

Unightly Black Lines to Be Done Away With by Use of Material Colored Like Concrete.

(Prepared by the United States Department of Agriculture.)

Unightly black lines, sometimes jagged and irregular, which mar the appearance of practically all concrete roads and which are due to the natural color of materials used to fill joints and cracks, will be avoided by the use of a material for the purpose developed in the laboratories of the bureau of public roads, United States Department of Agriculture, if tests by actual use prove as successful as expected. This material has the same color as concrete, and when used to fill cracks and joints the surface has the appearance of a continuous and unbroken slab to the casual observer.

No particular advantage over other good materials is claimed for the preparation other than its color, and it is probable that the cost will be somewhat higher but not prohibitive.

For several weeks a section of road with expansion joints filled with this material has been under observation, and the results are entirely satisfactory, but a longer test will be necessary before it can be recommended for general use.

The mixture consists of approximately 12 parts rosin, 1 part crude rubber, with sufficient barium sulphate to give the desired color. In preparation

A Hard Surface Road Just North of New Providence, Pa., Showing the Road Before and After Completion.

the rubber is dissolved in gasoline, and the rosin is then mixed in with an application of heat, the coloring material being added as required. Any desired consistency can be obtained by varying the proportions. A material with remarkable adhesive properties is produced and which can be heated so that it will flow into the cracks and joints.

BUILD FEDERAL-AID BRIDGES

Nearly Fifty Miles Constructed in 35 States During Period of 4 Years and 4 Months.

More than \$8,525,000 has been expended by the federal government, through the bureau of public roads, United States Department of Agriculture, toward the building of bridges on federal-aid roads and highways in 35 states during the 4 years and 4 months ending November 1 last. That period dates back to the inception of the federal-aid road work as at present supervised.

Placed end to end, these bridges, each of which has been constructed in connection with the road work, would total 47.4 miles. Their estimated total cost is placed by the department at \$20,285,200.13. It will thus be seen that approximately 42 per cent of the total was contributed by the federal government. The location of some of the chief projects and their total cost was as follows: Georgia, \$2,050,474.50; New Jersey, \$5,108,402.75; North Dakota, \$1,300,884.50; Oklahoma, \$2,280,769.76; South Carolina, \$1,404,278.25; and Texas, \$800,907.20.

GOOD ROADS ASSIST FARMER

Joint Commission of Agricultural Inquiry Finds Improved Highways Lessen Costs.

The joint commission of agricultural inquiry sees in good roads one of the ways of solving the farmer's difficulties. Part one of the report on "Agricultural Crisis and Its Causes" says: "Good roads to local markets, joint facilities at terminals connecting rail, water and motor transport systems and more adequate facilities at shipping points will materially contribute to the reduction of costs of marketing and distribution to the mutual benefit of producer and consumer."

Highroads and Skyroads.

"Highroads and skyroads" is the title of a one-reel motion picture just released by the United States Department of Agriculture. It was made in the western tier of states under the supervision of highway engineers of the bureau of public roads.

Replace Grade Crossings.

There are 252,000 grade crossings in the United States. To replace these by a separation of the highway and railway grades would require according to estimates, \$12,000,000,000.

COMMISSIONER'S SALE

Crittenden Circuit Court, Kentucky
C. S. Riggs and others, Plaintiff
Against
Annie Riggs and others, Defendant

By virtue of a Judgement and Order of Sale of the Crittenden Circuit Court, rendered at the Nov. Term, thereof 1922 in the above cause, I shall proceed to offer for sale at the Court house door in Marion to the highest bidder at PUBLIC AUCTION on Monday the 8th day of Jan. 1923 at 1 o'clock P. M. or thereabout, (being Court day) upon a credit of 6, 12 and 18 months the following described property, to-wit:

A tract of land lying and being in the county of Crittenden and on the waters of Wolf creek and bounded as follows. Beginning at a stone, running N 1-2 E 75 poles to a stone thence S 19 1-2 E 98 poles to two hickories; thence S 69 1-2 W 55 poles to a hickory; thence N 20 W 43 1-3 poles to a stone; thence S 69 W 18 poles to a stone in a road thence N 20 W 55 poles to the beginning containing 40 acres, more or less and same property conveyed by Nancy C. Neal to Wm. S. Riggs by deed dated January 2, 1885, and recorded in the county court clerk's office Crittenden county deed book R Page 445.

Also the following described tract or parcel of land lying in Crittenden county, Kentucky and described as follows. Beginning at a stone thence S 24 W 45 poles to a white oak; thence S 23 E 60 poles to a stone and old sugar tree stump corner to Thomas Simpson; thence with his line S. 77 1-2 W 100 poles to a black oak; thence N 68 1-2 W 19 1-2 poles to a white oak corner to Wood, Taylor and Neal; thence N 20 W 110 poles to a stone; thence a straight line to the beginning containing 64 acres, more or less and being the same land deeded to Wm. S. Riggs by W. E. Wood by deed dated Jan. 23, 1875 and recorded in Deed Book M, page 305, Crittenden County Clerk's office.

Also another tract of land lying and being in Crittenden county, Ky., beginning at two Spanish oaks, Riggs corner; thence S 81 W 13 poles to a stone, Simpson's corner; N 18 W 9 poles to a white oak, Riggs corner; Thence S 65 1-2 poles to the beginning; containing 63 acres more or less and being same property deeded to Wm. S. Riggs by J. S. Neal by

deed dated March 27, 1899 and recorded in Deed Book No. 7, Page 455 Crittenden County's Clerk's office.

The above described property being the same land which Wm. S. Riggs lived at the time of his death and known as the Riggs farm and consists and contains all the land owned by him at the time of his death.

For the purchase price, the purchaser, with approved security or securities, must execute bond, bearing legal interest from the day of sale until paid, and having the force and effect of a Judgement. Bidders will be prepared to comply with these terms. T. F. HARRIS, Commissioner.

The Unattainable.

Jud Tinkins says a circus poster illustrates some folks' idea of a beautiful world and a happy existence.—Washington Star

Holidays in the Jungle.

At the equator to Africa there are only two seasons—wet and dry. The former makes eight months of summer averaging 117 degrees Fahrenheit. During the dry season the thermometer rarely goes below 70.

WHY THAT LAME BACK?

That morning lameness—those sharp pains when bending or lifting make work a burden and rest impossible. Don't be handicapped by a bad back—look to your kidneys. You will make no mistake by following this resident's example.

Geo. A. Clark, E. Depot St., Marion says: Doan's Kidney Pills are a mighty good kidney remedy. I have had a great deal of trouble with backache at different times and my back was so lame across the small of it I could hardly straighten after bending. When I had these attacks I got Doan's Kidney Pills at Haynes & Taylor's Drug Store. Doan's never failed to rid me of backache. I am glad to recommend them to anyone in need of a good kidney remedy.

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Clark had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (Advertisement)

Studebaker

Veterans Perform Like Youngsters

Nine Studebaker Big-Six Touring Cars, with a total of one million miles to their credit, recently participated in an economy-reliability contest conducted by the Studebaker dealer at Los Angeles.

All came through with perfect scores except two—one had dirt in the gasoline pipe, the other required a slight adjustment of brakes.

This is the most convincing demonstration of motor car reliability of which we know.

The run was from Los Angeles to Big Bear Valley and return—239 miles—of which 90 were on steep, rough mountain roads that necessitated stamina in every part. Yet the Big Sixes reached every checking station on time.

One of these old veterans has piled up the amazing total of 351,000 miles of practically uninterrupted service of two trips daily

between Los Angeles and Santa Barbara.

Another has 250,000 miles to its credit, and so on.

No such group of cars was ever before assembled for such a strenuous proof of endurance. Their entry in competition, over one of the most difficult of Southern California's mountain roads, was an expression of confidence of the owners in Studebaker's everlasting goodness.

The dependability of the Big Six Touring Car, its low cost of maintenance, its comfort, fine appearance and complete equipment make it the most desirable seven-passenger car on the market. Its price is way below cars that do not even approach it in value.

The name Studebaker is your assurance of value and satisfaction.

Motorcar with ornamental radiator cap. Front and rear bumpers. Rain-proof, one-piece windshield. Automatic windshield wiper. Courtesy light on the driver's side which promotes safety in passing other cars at night. Tonneau lamp with long extension cord. Cool parking lights. Cool ventilator. Jeweled eight-day clock. Rear-view mirror. Theft-proof transmission lock. Tool compartment in the left front door. Block chockers.
